

## Student Lending Made Easy.

Next-Generation Lending from Entech

Today's student borrower is a digital native, raised in an always-on world.

They expect their experiences to be fast, personalized and easy. This is often at odds with tedious, marathon like loan applications. Entech is changing that. Our lending platform simplifies and accelerates Student Lending and Education Refinance. Borrowers love it because it meets their need for speed and convenience. For lenders, it increases conversion rates while maintaining operational effectiveness and loan quality.

Find out how Entech can help you capture this audience. Call us today 610-590-2154

**Fast and easy:** Automated data collection and pre-filled forms

**Mobile and dynamic:** Anytime, anywhere, any device

**Connected and engaged:** Text, chat, email, social networks

# Student Lending Made Simple.

“Today’s consumer lending environment is highly complex, driven by ever increasing customer demands, regulatory changes, successful lenders need to navigate each of these challenges and recognize that a one-size-fits-all approach to customer experience is no longer suitable.”

-PricewaterhouseCoopers

## Attract More Customers, Book More Loans

Entech’s Loan Origination Hub is built to scale and contains a range of robust, enterprise-class back-office student lending and education refinancing features. But, what really sets Entech apart is how we simplify the business critical aspects of student lending.

With over \$50B in loans processed, our customer acquisition framework provides the rapid go-to-market and campaign management tools you need to attract today’s borrowers and book more loans.
