

ENTECH LAUNCHES ORIGINATE LOAN ORIGATION OPERATIONS CENTER

*Provides full end-to-end services including technology platforms,
customer support, processing, and underwriting*

Malvern, PA, March 20, 2018 – Entech (www.entech.com), today announced *Originate*, a turnkey solution for consumer, student, and education refinance loan providers. *Originate* enables lenders to respond faster to changing market demands, accelerate the loan experience for their customers, and lower operational costs.

The digital loan origination lifecycle is complex and requires advanced technology and highly skilled personnel. In today's world, banks, credit unions, and student lenders need to rapidly respond to dynamic market conditions to provide customers with seamless, high quality loan origination services. Entech's *Originate* solution combines AppWorks, the most extensive loan origination technology currently available, with expert customer care and loan processing services delivered through our secure, state-of-the-art loan operations center. For one low cost, lenders can now deliver loan products quickly and easily, without the need for a large upfront investment in technology or operations.

"Lending institutions are facing tough challenges related to competition, CFPB regulations, and the relentless pace of technology change. Originate will deliver on the needs of our clients putting consumer's back into focus by eliminating technology and service hurdles," said Jeffrey Milne, CEO of Entech.

Originate offers lenders a full range of turnkey loan lifecycle options for all types of consumer lending from loan application through funds disbursement. *Originate* solution services include, but are not limited to, loan application customization and branding, credit check, fraud detection, customer care, electronic document management, flexible underwriting configurations, branch support, voice response system, mail services, check writing, disclosure management, loan disbursement, reporting, and loan analytics. Loan origination services are tailored, with pricing optimized to meet any client needs.

Massachusetts Education Finance Authority (MEFA), an Entech AppWorks customer since 2002, has recently transferred their loan origination services to Entech's new Loan Originations Operations Center. *in our lending program. With a corporate goal of leveraging technology to optimize the customer experience, realizing high levels of application pull-through rates, achieving scalable and efficient underwriting practices and minimizing regulatory operating risk, the Entech AppWorks solution has been highly customizable with flexible technology to meet the increasing expectations of customer engagement and mitigating risk in the customer acquisition process."*
